Barky Beaver

MULCH & SOIL MIX, INC.

Mission

*W*ith acres of mulch and bark in year-round inventory, Barky Beaver serves thousands of customers each year. We value our integrity, dependability and are known for our excellent customer service.

We are respected throughout the horticulture industry for our continued commitment to natural ingredients that respect the earth and environment, and it is our mission to maintain that reputation.

We're proud to offer 100 percent natural mulch and soil products, manufactured to enhance the quality of your outdoor living spaces.

*O*ur story begins some 30 years ago with our founder, Doug Smith. Doug grew up not too far from Barky Beaver's current headquarters in Clay County, where his dad owned a sawmill. By the time Doug was 11, he was learning the ropes from his dad.

After high school, Doug pursued a degree—and career—in engineering, but he couldn't shake his experiences at the sawmill.

In 1970, Doug returned to his roots and began milling wood in the small town of Moss, where the mill sits today.

Although Doug passed away in 2011, his daughter April and her husband Nick Patterson have continued Doug's mission to provide high quality mulch, soil and stone to wholesalers and retailers throughout the South Central and lower Midwest regions of the U.S.

Our Story

A way of life.

Long before going green became a common buzzword, our founder, the late Doug Smith, believed that making a living from wood products meant using every possible part of the log — and having practices in place to renew those raw materials.

For Barky Beaver, going green isn't a passing trend. It's a way of life.

Our business is based on sustainable and environmentally friendly business practices. Together with our sister companies, we're directly or indirectly involved in virtually every aspect of the logging and sawmill business.

We remain committed to sustainability when creating all our Barky Beaver family of products. Because it's not just good business practice, it's proper stewardship. And it's the right thing to do.

We pride ourselves on producing the highest quality products available, using natural ingredients that honor our earth and environment

// **Barky Beaver has Great people to work with who deliver a quality product when you need it and are always on time...our best supplier! //**

Mulches

Here at Barky Beaver,
we offer two types of mulches:

- Hardwood bark mulch
- Shredded wood fiber mulch.

The gardners best friend!

All our mulches are 100 percent natural and environmentally safe. We never use waste wood or ground pallets!

Excellent for:

- Reduces soil erosion
- Improves health and fertility of soil
- Reduces weed growth and water loss
- Enhances appearance
- Protects plants from summer heat and winter cold

7.4 cubic foot

PROFESSIONAL GROWER MIXES

Professional growers may not be able to control the weather, but they can control growth and overall plant health, thanks to Barky Beaver's Professional Grower Mixes.

Traditionally, grower mixes have been peat/perlite/vermiculite/bark. Many growers have struggled in various aspects of managing their crop. After careful research with incorporating Quality Coconut Coir and tweaking other components, growers are experiencing amazing results! Our new blends will perform in a way, as one Tennessee Grower put it: "you've never experienced before!"

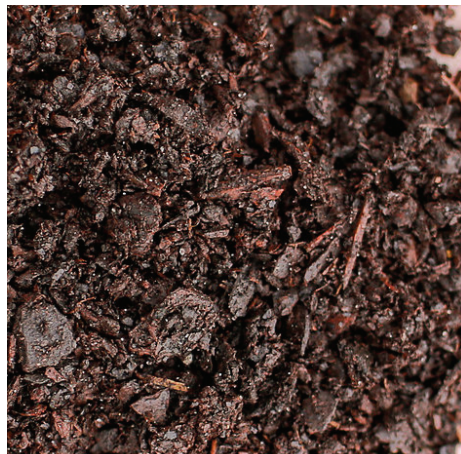

- Excellent Wettability
- Improved Plant Health
- Shorter Growing Time
- Less Production Costs
- Faster Rooting
- Better Finished Product

CUSTOM BLENDED SOILS

You can depend on Barky Beaver to produce an exact mix from your specifications. Many of our customers report that switching to Barky Beaver Custom Soil Mixes is one of the most cost effective decisions they have ever made.

Playground Safety Surfacing

BEAVER CHIPS

AVAILABILITY:
Bulk approximately
100 cubic yards

We all want the very best for our children. In today's world of hustle and bustle, it's more important than ever to provide a safe place for our children. A place where our kids can still be kids. And there's no better place for that than a playground.

Barky Beaver is proud to offer "Beaver Chips" IPEMA Certified Playground Surfacing. This Engineered Wood Fiber (EWF) is manufactured from virgin hardwood chips. No ground pallets or waste wood ever used. This resilient surface is perfect for under and around playground equipment, on pathway, and in high traffic areas.

Our engineered wood fibers knit together to create a unique outdoor surface:

- Soft enough to cushion falls
- Firm enough to accommodate wheelchairs.
- Protects from wear and puddling
- Safe
- Affordable
- Eco-friendly
- Chemical free
- No Bark, Dirt or Rock
- IPEMA-Certified for children's safety

Superior Bedding Material

PINE SHAVINGS

AVAILABILITY:
Approximately
7 cubic foot bale

Bulk approximately
100 cubic yards

Our from kiln-dried white pine shavings make a superior bedding material for barns, stalls, kennels.

- Compressed in plastic bags to control moisture content
- Easy to store and handle.
- Natural oils give pine shavings their distinctive aroma, providing a nice clean scent. (Reduces ammonia smell.)
- Use for horses, chickens, cattle, domestic pets, and others.
- Helps control insects.
- Available by the bag or in bulk.

I tell my customers there's no comparison between these and other shavings. Just pick up a bale and see the weight difference. You get more volume with the way they are compressed compared to most.
